Why you should attend and/or become a sponsor at this conference!

THE FUTURE IS NOW!

Instant Payments is no longer a thing of the future, it has arrived. Are you ready for what is coming in the Summer of 2023? We will also be covering topics such as operations, Crypto, bankcard, employee development and much more!

This year's Payments Conference is geared towards **EveryONE** as bankers who deals with the movement of money and will provide the latest on FedNow and RTP, as well as what this means for legacy payment systems like ACH, card, check, and wire transfer.

There will also be other topics covered such as IT infrastructure, bank card and even better tips on communication with your staff and peers!

All this is an effort to ensure community banks are comfortably prepared for the future by taking the steps needed here in the present.
